Course schedule updated October 12, 2004 **Changes/Cancellations will appear in red.**

## **FI-210 WILDLAND FIRE ORIGIN AND CAUSE DETERMINATION**

### **Hours 36**

#### **COURSE DESCRIPTION**

This course is currently in the final stages of development. FI-210 will replace P-151 Wildfire Origin and Cause Determination in the NWCG curriculum.

Wildland Fire Origin and Cause Determination, FI-210, is a 36-hour course

(not including the pre-course work), designed to meet the NWCG required training element for certification as a Type 3 Wildland Fire Origin and Cause Determination Investigator as outlined in the NIIMS Wildland and Prescribed Fire Qualifications System Guide (PMS 310-1) and the Position Task Book developed for the position.

The concepts taught in this course will help a Type 3 Wildland Fire Origin and Cause Determination Investigator perform at an acceptable level on a national basis without regard to geographic boundaries. The format of this course is a mix of lecture/discussion and group field exercises. Students will have the opportunity to practice new skills in the exercise portions of the class. The course consists of seven formal classroom lecture units, three practical field exercises, one practical evaluation, and a final written examination.

#### **OBJECTIVES**

This course is designed to provide a consistent knowledge and skill base for the Type 3 Wildland Fire Origin and Cause Determination Investigator.

The concepts taught in this course will help a Type 3 Wildland Fire Origin and Cause Determination Investigator perform at an acceptable level on a national basis without regard to geographic boundaries.

#### **TARGET GROUP**

Target Group to be determined

#### **PREREQUISITE (S)**

Prerequisite (s) to be determined
